

# Economy Steel Vertical Headrails

### HEADRAIL

Headrail is made of roll formed steel 1-½" wide by 1-¼" high with a minimum thickness of .024".

### CARRIERS

Injection molded PVC with eight- prong rotation system carriers have self-lubricating wheels for reduced friction. Carriers allow for 180 degree simultaneous rotation.

### END CONTROL

Each end is equipped with an injection molded PVC idle end which supports the pinion rod.

### PINION ROD

The pinion rod is an 8-prong system made of extruded aluminum. The pinion rod passes through each carrier and allows for simultaneous rotation.

### WAND

29" wand.

### BRACKET

Painted Steel

### STACK

Available in one way draw that will stack left or right.

*Headrail Only makes boosting inventory easy - just add vanes!*
