Complete with Matching Valance

End Control - PVC Idle End

Carriers - Injection Molded PVC

30" Wand

## Specifications

### HEADRAIL

Headrail is made of roll formed steel 1-1/2" wide by 1-1/4" high with a minimum thickness of .024". Headrail matches color of slats.

### CARRIERS

Injection molded PVC with eight - prong rotation system carriers have self-lubricating wheels for reduced friction. Carriers allow for 180 degree simultaneous rotation.

### END CONTROL

Each end is equipped with an injection molded PVC idle end which supports the pinion rod.

### PINION ROD

The pinion rod is an 8-prong system made of extruded aluminum. The pinion rod passes through each carrier and allows for simultaneous rotation.

### WAND

30" wand.

### VANES

Made of extruded, non-leaded rigid PVC. Vane thickness is .019" to .021". Vanes are 3-1/2" wide and are flame retardant.

### STACK

Available in one way draw that will stack left or right.
